STOMP, the international percussion sensation, returns to Winnipeg on May 6-7, 2017 for three shows at Burton Cummings Theatre. From its beginnings as a street performance in the UK, **STOMP** has grown into an international sensation over the past 20 years, having performed in more than 50 countries and in front of more than 24 million people.

Created by Luke Cresswell and Steve McNicholas, **STOMP** continues its phenomenal run with four global productions: the ongoing sell-out production at New York's Orpheum Theatre, a permanent London company, and North American and European tours. Throughout its life, the show has continued to change by creating new material; soon it will incorporate two new pieces. It is safe to say you will never again look at supermarket carts or plumbing fixtures the same way... or paint cans, or kitchen sinks or...The performers "make a rhythm out of anything we can get our hands on that makes a sound," says co-founder/director Luke Cresswell. A unique combination of percussion, movement and visual comedy, **STOMP** has created its own inimitable, contemporary form of rhythmic expression: both household and industrial objects find new life as musical instruments in the hands of an idiosyncratic band of body percussionists. It is a journey through sound, a celebration of the everyday and a comic interplay of characters wordlessly communicating through dance and drum.

Synchronized stiff-bristle brooms become a sweeping orchestra, eight Zippo lighters flip open and closed to create a fiery fugue; wooden poles thump and clack in a rhythmic explosion. **STOMP** uses everything

but conventional percussion instruments – dustbins, tea chests, radiator hoses, boots, hub caps – to fill the stage with a compelling and unique act that is often imitated but never duplicated.

Critics and audiences have raved: “**STOMP** is as crisp and exuberant as if it had opened yesterday,” says The New York Times. The San Francisco Chronicle declares “**STOMP** has a beat that just won’t quit!” The Los Angeles Times exclaims: “Electrifying! Triumphs in the infinite variety of the human experience.” “A phenomenal show! Bashing, crashing, smashing, swishing, banging and kicking – a joyous invention!” says the Chicago Tribune.
