

CODE CAMP: AI in an Afternoon

NO COMPUTER PROGRAMMING EXPERIENCE REQUIRED! DESIGNED FOR AGES: 8 TO 17

GROW THE NEXT GENERATION FOR A CAREER IN AGTECH:

2 hours of AgDays for You,
a Lifetime of possibility for them!

**Participants will learn about Ag applications
of Artificial Intelligence:**

- Image recognition (bio-security, site security and safety)
- Text to speech (hands-free instructions, verbal directions)

Coders will get the confidence they need to dive into Artificial Intelligence, and the skills to start personalizing models in just **one afternoon**.

Farm Femmes 

w/ Karen Hildebrand, PhD and Teresa Vallotton, MSA
