

The basic details for the Elm Creek Equine Veterinary Services' Client Education Day are as follows:

- Interactive presentations outlining equine health care for Manitoba horse owners tailored to a junior audience (ages 8-13 is target audience).
- Interactive displays showing what equine veterinary medicine is and what we do as horse vets.
- Table talk at lunch time on vet school admission.
- Barbecue lunch by Danny's BBQ (\$10 cost for lunch).
- Tours of our Equine Hospital and Reproduction Centre throughout the day.

The afternoon is more catered to senior members and adults, with talks on equine reproduction, equine lameness and equine gastrointestinal disease. We welcome the younger members to stay throughout the day or head home after lunch.

We just ask for RSVPs from all interested clubs, and that the club send a minimum of one adult chaperone per six junior members.

Elm Creek Equine
