### Butterfly Feeder

Butterflies not only add to the beauty of our garden but they also help with pollinating flowers. There are over 500 known species of butterflies in Canada and United States, that help the flowers grow.

Please click on the link below for instructions to build your own butterfly feeder.

Once you have completed your project, please send a picture to [learns@4h.mb.ca](mailto:learns@4h.mb.ca) so we can celebrate your accomplishment.

(we hope to collate the information we receive and share it on our website and social media)
