Science & Technology

Make Oobleck with Christmas Peppermints

Oobleck or goop is perfect for simple science because it shows off the properties of a non-Newtonian fluid. It acts both like a solid and a liquid. Please see link below.

Christmas Catapult STEM Activity

Making a catapult is a great STEM activity for members of all ages. A catapult uses math, engineering, and science in a very fun way. Please see link below.

Please take a picture of your finished projects and send to learns@4h.mb.ca so we can share your successes.
