

Tissue Paper Heart Wreath

This craft is super easy to make, and you only need scissors and 3 different supplies to make it! You might even have the tissue paper already! Feel free to mix up the colours- use different pinks and reds, or different shades of purple or blues... however you want it to look, you can do it!

What you need:

- Colored craft tissue papers – 3 or more colours of your choice
- Scissors
- Craft glue
- Heart shape wreath base (styrofoam or cardboard)

Instructions for making the tissue paper heart wreath

Step 1

Select 3 or more different coloured craft tissue papers for this craft. Cut the tissue papers into small square pieces (any size you prefer). The pieces prepared here were about 4 cm x 4 cm. Cut as many square tissue papers as you can, you will need a whole bunch of them!

Step 2

Take the tissue paper cutouts one by one and crumple them into small ball shapes. This part takes time but it's fun too!

Step 3

Crumple the rest of the tissue paper pieces.

Step 4

Grab the heart-shaped wreath base and the crumpled tissue papers.

Step 5

Start gluing the crumpled tissue paper on the heart wreath base. Keep the crumpled balls adjacent, keeping no gaps between them. Try to fill the heart wreath base nicely with the crumpled tissue papers.

Step 6

Continue to glue the crumpled tissue papers until the wreath is completely filled. Once the heart wreath base is filled, allow the glue to dry.

Attach a hanging mechanism at the backside to complete the wreath.
