

AgriFood Challenge Winner Announced!

4-H youth across Canada are leading the way in sustainable agriculture and food security through the AgriFood Challenge, delivered by 4-H Canada in partnership with Syngenta Canada.

From building bee hotels and pollinator gardens to reducing food waste and growing produce for local food banks, members turned innovative ideas into meaningful community impact.

This year, 13 prizes of \$500 were awarded to outstanding youth-led projects from Newfoundland and Labrador to British Columbia and Prince Edward Island. Now in its second year, the Challenge continues to empower young leaders to strengthen sustainable food systems across Canada.

Here are this year's AgriFood Challenge Winners:

Newfoundland & Labrador

- I. Sullivan — Bee Hotel
- Challenging Pioneers — Helping Harvest

Ontario
